T1987

Performance Tuning and Optimizing SQL Databases

Facilities

- Class hours
- Building hours
- Restrooms
- Meals

About This Course

- Audience
- Course Prerequisites
- Course Objectives
- What You Can Expect

Course Outline

- **Module 1**, Architecture, scheduling, and wait statistics
- **Module 2**, SQL Server I/O
- **Module 3**, Database Structures
- **Module 4**, Memory usage
- **Module 5**, Concurrency
- **Module 6**, Statistics and Index Internals
- **Module 7**, Execution plans
- **Module 8**, Plan caching and recompile
- **Module 9**, Extended Events
- **Module 10**, Monitoring
